# MODEL N° EOS 3-POINT TABLE LAMP

The echo of our 3-Point Floor Lamp, the scaled-down 3-Point Table Lamp brings a touch of rebel and Mid-century architectural lineage to a table space. With its tripod base and the inherent translucency of its 3D printed shade, 3-point projects an even glow and personality through its print construction. Forever committed to sustainability, 3-Point uses only FSC® certified or salvaged hardwoods and plant-based resins. You can spec 3-Point in multiple hardwoods, resin colors, and power configurations.

### dimensions

Shade	width height depth	8.5" 24" 9"
Fabric Plug-in Cord *max 60W bulb *grounded 3 blade plug *thumb switch 2ft from plug end	overall length socket length	18ft 3in

#### care

PLA polymer shades should be cleaned routinely. Use a feather duster and a natural cleaner and cloth for routine maintenance. The table light is only for use with a LED bulb. Not for use with an incandescent bulb.

# sustainability

From FSC® certified hardwoods, to plant-based polymers, to GOLS-certified latex, we examine every product for sustainability, quality, and performance. We strive to source our materials locally. Additive manufacturing processes like 3D printing let us produce each piece to order. Limiting inventory minimizes our carbon footprint and also maximizes our product quality. Only the products identified as such in this document are FSC®-certified. FSC® C125400/SCS-COC-007184

# customization

With the use of our advanced manufacturing processes, our customers have the freedom to customize their order. From sizing, material choice, fabric color and finish, we can truly design your living space to the customers ideal vision. There is no minimum order quantity as we are aiming to reach a diverse range of customers, from big companies to small homes.
